

Assignment V (Last Date: 15-7-2021)

1. Write a program to merge the contents of two given files into a third file.
2. Write a function in C++ to count and display the number of lines not starting with alphabet 'A' present in a text file "STORY.TXT".

Example:

If the file "STORY.TXT" contains the following lines:

The rose is red.

A girl is playing there.

Numbers are not allowed in the password.

There is a playground.

An aeroplane is in the sky.

3. Write a program using **generic stack class** to implement all possible stack operations using pointers.
4. Write a program of your choice to handle the occurring **exceptions** in the program using multiple *catch* statements.
